

Florence S.T.E.P. Group

Our Mission:

Restoring Fish Populations to Historic Levels

The Florence STEP Group would like to welcome you as a member

Recent and on-going projects include:

- Operating the adult Coho traps at Little Woahink Dam and Munsel Creek.
- Spawning adult Coho
- Incubating Coho eggs at the Florence STEP Group hatchery
- Checking adult steelhead traps at West Indian Creek, Whittaker Creek, Greenleaf Creek, and Green Creek
- Spawning adult steelhead
- Incubating steelhead eggs at the Florence STEP Group hatchery
- Transferring steelhead eggs to ODFW hatcheries and Letz Creek STEP hatchery
- Habitat restoration projects on creeks within the Siuslaw River watershed with ODFW and USFS
- Classroom steelhead aquarium projects in local schools
- Provide advisors to the Siuslaw area youth
- Provide yearly salmon and steelhead educational clinics for the community
- Youth angling clinics and free fishing day
- Overseeing the new Coho fishery at Siltcoos and Tahkenitch Lakes
- Complexing streams by adding conifer, alder and other native branch material to pool areas

If you wish to participate, complete the application and turn in the application to a STEP member or at our next monthly STEP meeting.
